PRECIOUS MOMENTS

COLLECTORS' CLUB ®

Currently under construction at the Fincantieri shipyard in Italy, Carnival Panorama is scheduled to enter service Dec. 11, 2019, with a special three-day cruise from Long Beach then launch year-round seven-day Mexican Riviera service Dec. 14, visiting top resort destinations including Cabo San Lucas, Mazatlán and Puerto Vallarta.

The float in the Rose Parade is just the beginning of a year-long celebration of Carnival's first new ship based in California in 20 years, scheduled to begin sailing from its homeport of Long Beach in December 2019. The float will include many of the signature features of the cruise line's ships – including the red and blue funnel, a water park and Lido Deck party – as well as the line's newest feature, the first-ever trampoline park at sea, in partnership with industry leader Sky Zone.
